CONTENTS

VOLUME 30 • NUMBER 7 • SUPPLEMENT • JULY

The Journal is included in the *Index Medicus* and in MEDLINE

Special Issue

Steps forward: ASES Fellows' Day & JSES Fellows' issue

Robert H. Cofield, MD, and Richard J. Hawkins, MD, Rochester, MN, and Greenville, SC, USA S1

Clinical outcomes of a unique ulnar collateral ligament reconstruction hybrid technique with ulnar-sided suspensory fixation

Tyler L. CarlLee, MD, Allison J. Rao, MD, Gregory T. Scarola, MSPH, Nicholas C. Yeatts, BS, David P. Trofa, MD, Nady Hamid, MD, Shadley C. Schiffert, MD, Patrick M. Connor, MD, James E. Fleischli, MD, and Bryan M. Saltzman, MD, Charlotte, NC; New York, NY, USA S2

Effectiveness of radiographs and computed tomography in evaluating primary elbow osteoarthritis

Naser S. Alnusif, MD, Bogdan A. Matache, MD, CM, Saad M. AlQahtani, MD, MSc, Diana Isa, MD, MSc, George S. Athwal, MD, Graham J.W. King, MD, MSc, Joy C. MacDermid, PhD, and Kenneth J. Faber, MD, MHPE, Kuwait City, Kuwait; Québec, QC, Moncton, NB, and London, ON, Canada; Al-Khobar, Saudi Arabia S8

Criteria-based return-to-sport testing is associated with lower recurrence rates following arthroscopic Bankart repair

Mauricio Drummond Junior, MD, Adam Popchak, PT, PhD, Kevin Wilson, MD, Gillian Kane, BS, and Albert Lin, MD, Pittsburgh, PA, USA S14

Athletes diagnosed with anterior and posterior shoulder instability display different chief complaints and disability

Lucas G. Teske, MD, John Arvesen, MD, Michael J. Kissenberth, MD, Stephan G. Pill, MD, MSPT, Adam Lutz, PT, OCS, Kyle J. Adams, BS, Charles A. Thigpen, PhD, PT, ATC, John M. Tokish, MD, Amit Momaya, MD, and Ellen Shanley, PhD, PT, OCS, Greenville, SC, Scottsdale, AZ, and Birmingham, AL, USA S21

CONTINUED

Regenesorb and polylactic acid hydroxyapatite anchors are associated with similar osseous integration and rotator cuff healing at 2 years Stephan G. Pill, MD, MSPT, Jeremy McCallum, MD, Stefan J. Tolan, MD, Taylor Bynarowicz, BS, Kyle J. Adams, BS, Josh Hutchinson, BS, Ryan Alexander, BS, Paul C. Siffri, MD, John M. Brooks, PhD, John M. Tokish, MD, and Michael J. Kissenberth, MD, Greenville, SC, and Scottsdale, AZ, USA	S27
A new approach to superior capsular reconstruction with hamstring allograft for irreparable posterosuperior rotator cuff tears: a dynamic biomechanical evaluation Daniel P. Berthold, MD, Ryan Bell, BS, Lukas N. Muench, MD, Andrew E. Jimenez, MD, Mark P. Cote, PT, DPT, MS(CRT), Elifho Obopilwe, MS, and Cory M. Edgar, MD, PhD, Farmington, CT, USA; and Munich, Germany	S38
Graft healing does not influence subjective outcomes and shoulder kinematics after superior capsule reconstruction: a prospective in vivo kinematic study Jonathan D. Hughes, MD, Gillian Kane, BS, Clarissa M. LeVasseur, MS, Alexandra S. Gabrielli, MD, Adam J. Popchak, PhD, William J. Anderst, PhD, and Albert Lin, MD, Pittsburgh, PA, USA	S48
Locating the rotator cable during subacromial arthroscopy: bursal- and articular-sided anatomy Thomas R. Zink, DO, Christopher C. Schmidt, MD, Dimitrios V. Papadopoulos, MD, Ryan J. Blake, BS, Michael P. Smolinski, BS, Anthony J. Davidson, BS, Christopher S. Spicer, MS, Mark C. Miller, PhD, and Patrick J. Smolinski, PhD, Pittsburgh, PA, USA	S57
Outcomes of rotator cuff repair with concurrent microfracture of focal glenohumeral osteoarthritis Brian W. Hill, MD, Arjun M. Singh, BS, Matthew Astolfi, MD, J. Gabe Horneff, MD, Bradley S. Schoch, MD, and Joseph A. Abboud, MD, Philadelphia, PA, and Jacksonville, FL, USA	S66
Validation of new shoulder periprosthetic joint infection criteria Vikas V. Patel, MD, Stephen M.C. Ernst, MD, Rajesh Rangarajan, MD, Collin K. Blout, BS, Brian K. Lee, MD, and John M. Itamura, MD, Los Angeles, CA, USA	S71
Early to midterm outcomes of anatomic shoulder arthroplasty performed on dysplastic glenoids Mihir M. Sheth, MD, Brent J. Morris, MD, Mitzi S. Laughlin, PhD, Jacob L. Cox, MD, Stephen L. Jones, MD, Hussein A. Elkousy, MD, and T. Bradley Edwards, MD, Houston, TX, USA	S77
Preoperative screening in patients having elective shoulder surgery reveals a high rate of fall risk Thomas J. Kaiser, MD, Ellen Shanley, PhD, PT, OCS, Thomas R. Denninger, PT, Beth Reuschel, PT, Michael J. Kissenberth, MD, Stefan J. Tolan, MD, Charles A. Thigpen, PhD, PT, ATC, and Stephan G. Pill, MD, MSPT, Greenville, SC, USA	S84
The subscapularis-sparing windowed anterior technique for total shoulder arthroplasty John P. Ross, MD, Andrew Lee, MD, Ryan Neeley, DO, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, USA	S89

CONTENTS

CONTINUED

Comparing patient-reported outcome measures and physical examination for internal rotation in patients undergoing reverse shoulder arthroplasty: does surgery alter patients' perception of function? Edward J. Southard, MD, Gabriella Ode, MD, Peter Simon, PhD, Kaitlyn N. Christmas, BS, CCRC, Damir Pamic, BS, Philippe Collin, MD, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, and Greenville, SC, USA; and Rennes, France	S100
Biomechanical comparison of zoned-conformity glenoid versus standard glenoid in total shoulder arthroplasty: impact on rotator cuff strain and glenohumeral translation Melissa A. Wright, MD, Pooyan Abbasi, MSME, and Anand M. Murthi, MD, Baltimore, MD, USA	S109
Influence of preoperative factors on timing for bilateral shoulder arthroplasty Andrew Lee, MD, Kaitlyn N. Christmas, BS, CCRC, Peter Simon, PhD, Fenil R. Bhatt, BS, William E. Lee III, PhD, Mark A. Mighell, MD, and Mark A. Frankle, MD, Tampa, FL, USA	S116
Early clinical and radiographic outcomes of an augmented baseplate in reverse shoulder arthroplasty for glenohumeral arthritis with glenoid deformity Jacob M. Kirsch, MD, Manan Patel, BA, Akash Singh, BS, Mark D. Lazarus, MD, Gerald R. Williams, MD, and Surena Namdari, MD, MSc, Philadelphia, PA, USA	S123
Anatomic total shoulder arthroplasty for primary glenohumeral osteoarthritis is associated with excellent outcomes and low revision rates in the elderly Andrew R. Jensen, MD, MBE, Jennifer Tangtiphaiboontana, MD, Erick Marigi, MD, Katherine E. Mallett, MD, John W. Sperling, MD, and Joaquin Sanchez-Sotelo, MD, PhD, Los Angeles and San Francisco, CA, and Rochester, MN, USA	S131
Factors influencing time to return to sport following clavicular fractures in adolescent athletes Briggs M. Ahearn, MD, Ellen Shanley, PhD, PT, OCS, Charles A. Thigpen, PhD, PT, ATC, Stephan G. Pill, MD, and Michael J. Kissenberth, MD, Greenville, SC, USA	S140
Do local liposomal bupivacaine and interscalene nerve block provide similar pain control after shoulder arthroplasty? A dual-center randomized controlled trial Iman Ali, BS, Hari Om Gupta, DO, MSc, Michael Khazzam, MD, Geneva L. Thomas, AS, Saisanjana Vattigunta, BA, Brendan Y. Shi, MD, Sabrina G. Jenkins, BS, and Uma Srikumaran, MD, MBA, MPH, Baltimore, MD, and Dallas, TX, USA	S145
Opioid consumption following orthopedic shoulder surgery: a retrospective analysis Saisanjana Vattigunta, BA, Scott Weiner, DO, Suresh K. Nayar, MD, Sabrina Jenkins, BS, and Umasuthan Srikumaran, MD, MBA, MPH, Baltimore, MD, USA	S153

Information for Readers 9A

Disclaimer

The opinions or views expressed in this professional education supplement are those of the authors and do not necessarily reflect the opinions or recommendations of the Board of Trustees of the *Journal of Shoulder and Elbow Surgery*.

Dosages, indications, and methods of use for products that are referred to in the supplement by the authors may reflect their clinical experience or may be derived from the professional literature or other clinical sources. Because of the differences between in vitro and in vivo systems and between laboratory animal models and clinical data in humans, in vitro and animal data may not necessarily correlate with clinical results.

Manuscript Review Information

All manuscripts submitted to both regular issues and supplements of the *Journal of Shoulder and Elbow Surgery* are reviewed by two reviewers.

All authors submitting to supplements are required to fully disclose any primary financial relationships with a company that has a direct fiscal or business interest in the subject matter or products discussed in the submitted manuscript, or with a company that produces a competing product. These relationships (such as ownership of stock or significant honoraria or consulting fees) and any direct support of research by a commercial company must be indicated in the Disclaimer section at the end of each article.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds or experiments described herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made. To the fullest extent of the law, no responsibility is assumed by the American Shoulder and Elbow Surgeons for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.
